

## March 2022 Fundamental Leader of the Month – Joe Turchyn

For the month of March, [Construction Owners Association of Alberta \(COAA\)](#) FLIC would like to feature [Joe Turchyn, P.Eng.](#) Joe is FLIC's very own Director of Initiatives, and also a founding member of FLIC. Joe has a Mechanical Engineering degree from the [Western University](#) and 20+ years' experience in projects, operations, consulting and design across many different industries - steel, brewing, nuclear, mining, and oil & gas (just to name a few 😊).

Joe started at [Synchrude Canada Ltd.](#) in 2013 as a Project Manager, advanced to a Team Leader, and is currently a Leadership Coach for [Suncor](#). One of his most challenging and exciting projects, to date, was the successful completion of the new Raw Water Supply System for Synchrude's Mildred Lake Base Plant - link to article below for reference.

Joe is a loving husband and father of three and is very active in Fort McMurray's Community.

When Joe isn't coaching his kid's hockey teams, pursuing his MBA at the [University of Alberta](#), or renovating his cabin at the lake, he somehow manages to find the time and energy to progress FLIC's initiatives:

- Connecting a broader network of professionals
- Collaborate and share knowledge to influence positive change
- Improve safety, productivity and culture
- Drive success in Alberta's Industrial Construction Industry

It is with great pride and sincerity that we recognize all of Joe's efforts and accomplishments as this month's Leader of Month!
