

COAA Fundamental Leader of the Month – September 2021

COAA FLIC is excited to kick-off another season of Fundamental Leaders of the Month – Our September 2021 Leader of the Month is John Salazar, TC Energy.

John is currently an Area Manager at TC Energy in Lac La Biche, AB, and also holds a Board Director position with the Progressive Assistance Canada (PAC) Charity - focusing on relieving hunger and poverty and assisting local Filipino communities in finding their path through sustainable development. John is an Advisor & Canadian Liaison for SOLAR Hope as well – an initiative to provide solar energy to rural and poorly electrified communities in the Philippines.

It is no surprise, John's passionate electricity runs through the teams and stakeholders he works with daily, as well as the community he lives in. Whether it be celebrating National Ice Cream Day virtually with the team, or fiercely advocating and working towards a better community – John always finds a way to the fun while bringing awareness to causes that are too often overlooked.
