

COAA FLIC – Future Leader of the Month Justin deMontarnal of Enbridge

[Construction Owners Association of Alberta \(COAA\)](#)

[COAA Future Leaders of Industrial Construction \(FLIC\)](#) - Future Leader of the Month October 2020

Justin deMontarnal has developed a name for himself working in the Projects Business Unit at Enbridge Inc. When an opportunity presents itself he's always the first to put up his hand to help which has led to his involvement in initiatives focusing on improving supply chain processes and compressor station modularization amongst others. With his extensive experience in compression projects he ultimately discovered his passion for teaching through the 'Compressor Station 101' program. Justin is the content creator and a presenter for this program which provides an introduction to compressor stations for Project Engineers and Project Managers at Enbridge.

On top of this impressive portfolio, Justin is the Calgary chapter co-chair of YPAC - Young Pipeliners Association of Canada. Justin was responsible for rolling out YPAC's Avatar Program along with September's Future Leader of the Month Ana Villarreal (<https://www.coaa.ab.ca/app/uploads/September-Future-Leader-2020-Ana.pdf>).

Thank you, Justin, for dedicating yourself to the next generation of Future Leaders!
