

# Capital Power

## FLIC – Future Leader of the Month (January 2021 Feature)

Kris Mezaros, P.Eng. is an Engineer and Construction Manager with Capital Power who earned his degree from the University of Alberta. He has spent his career building Alberta heavy industrial construction projects, including four utility-scale power projects with Capital Power. Kris recently joined the Construction Team at Genesee for Capital Power's [Repowering](#) of its coal-fired generating station.

Kris is a team builder and a positive force both on the job and off the job, including participating in the annual *Racing for a Cure* in support of [Kids with Cancer Society](#).

***“Capital Power has always been about building relationships with industry partners and the communities we operate in.”***

Kris has been nominated for COAA's Future Leader of the Month, as he is a great example of the future of construction in Alberta, and a valuable part of Alberta's energy solutions.
