

FLIC LEADER OF THE MONTH APRIL 2024

LENARD DOROSHUK

Terrafirma Resources

Lenard Doroshuk Jr. is a Project Manager at Terrafirma Resources, a mechanical and civil construction contractor based in central Alberta. In his current position, he oversees and supports a wide range of industrial execution for numerous customers across Western Canada.

Lenard began his career as a summer student at a natural gas processing plant. From there, he completed his apprenticeship as an electrician, then steamfitter/pipefitter, becoming a dual-ticketed red seal journeyman. While advancing through craft leadership roles to a management position, he further complimented his knowledge and training by completing designations in safety (NCSO), quality (CWB Level 2), and project management (PMP).

“A career in construction has allowed me to develop a diverse skillset while getting to work across Western Canada’s industrial sector. I have been fortunate to be part of some incredible teams, and work with many talented tradespeople and construction professionals. Seeing the collective contributions from industry to build, maintain, and repair Alberta’s infrastructure and energy sector is particularly rewarding considering the impact it has on our overall quality of life.”

Lenard is also an advocate for skilled trades and has presented industrial career information at several high schools. “It is so important to highlight parallels between trade skills and life skills, and the career options that come available after completing an apprenticeship program. Attracting the best and brightest candidates not only benefits the individual, but it also ensures sustainability, innovation, and security for our future.”
